Briton says CIA sent agent to Games talks

London (AP)—A British lawmaker yesterday accused the U.S. Central Intelligence Agency of planting an agent at talks to consider holding a sports meet as an alternative to the Moscow Olympic Games.

An adviser in the U.S. delegation that discussed the matter in Geneva last week was a "Mr. Lenski," Laborite Tam Dalyell told the House of Commons.

Mr. Dalyell said Mr. Lenski—not otherwise identified—was the same man, "operating probably on behalf of the CIA," who urged Communist athletes from Eastern Europe to defect at the Mexico City Olympics in 1968.
